Ms. Ebright –

Thanks for sending me the documents. The Yakama Nation is providing a few recommended changes with some comments, mostly regarding the tribal funding language. Also I have letter outlining our concerns about it.

Subject: Portland Harbor Draft ASAO and SOW for baseline sampling

Hello LCT members,

Thank you for your comments on the Portland Harbor Pre-Remedial Design Baseline Sampling ASAO and SOW. Please see attached cover letter, draft ASAO and SOW emailed to a group of PRPs who have indicated an interest in completing the sampling effort. We added to the draft ASAO language relating to DEQ and Tribal cost reimbursement. This language anticipates that funding agreements outside the ASAO would be reached that identify more fully the funding arrangement. Once funding agreements are finalized, we can discuss any necessary revisions to reflect those agreements in the ASAO.

Thank you and please feel free to contact me or Lori Cora at cora.lori@epa.gov if you have any questions or wish to discuss further.

Best,
Stephanie
